

Playing Field and Community Facilities

We currently have one communal publicly maintained open space which is the playing field off Thieves Lane.

To date it has almost exclusively been used for the football club, together with a fenced off play area and recycling bins by the unsurfaced car parking area. Alongside is a small agricultural field.

Thinking about this facility, do you think it should continue to be maintained and used 'as is'?

Or do you have other ideas, such as:

Making it a village green area with additional planting?

Having a footpath run through it to link the Cheyney Avenue estate with more footpaths to the broad?

Having more sports clubs?

Having more recreational use?

Allowing it, and/or the field alongside, to be developed for sheltered housing or a communal use?

Do you think we should have more or alternative open communal spaces elsewhere in the village, such as more footpaths, a village green, cycle paths or communal woodland? If so, where?

Our built communal facility is the Village Hall in the old school. Do you think we should have more such facilities? If so, what and where?
